_____

TECHNICAL SKILLS

JavaScript • React • Node • Express • Massive • SQL

MongoDB • HTML • CSS • RESTful APIs • Auth0 • AWS

_____

PROJECTS

Roomers – Team Developed Web App   AUG 2017
Roommate finding application designed to help users rent out free space and match personality traits
http://roomers.app
- Utilized MongoDB's flexible database management system for data storage
- Used AWS S3 to upload and provide links to images for later use
- Held daily stand ups to provide feedback and point the team in the right direction
- Took advantage of the Google Maps API for location visuals
- Managed merge conflicts, resolved team issues, and grew as a team member

Lit – Personal Developed Web App   JUL 2017
Social media site intended for users to explore new music and share with friends/followers
http://ilitmusic.com
- Full stack application created with React, Node, Express, Massive, SQL
- Managed and circulated front end data with Redux
- Incorporated Spotify API for authentication and music using access tokens
- Manipulated SQL server data to provide like and follow features for users
- Formatted time stamps to show accurate posting times with moment.js

Recipe Lookup – Personal Developed Web App   JUN 2017
Small recipe lookup app built in 3 days after a week of learning React, Node, Express, and Massive
- Included Edamam API for recipe info
- Used Unsplash API for recipe photos that the user has added

_____

EXPERIENCE

Sales Associate – Menards   MAY 2016 – OCT 2017
- Trained co-workers to use a software application to mix paint
- Maintained presence on the sales floor to address customer needs
- Helped guests with home projects and product selection
